

GX SERIES

Reliable, easy to maintain
and exceptionally quiet!

POWER ON BOARD
DIESEL GENERATOR SETS

Durability, reliability and performance

VETUS generator sets are based on the quiet-running M-Line marine diesel engines, known for their reliability and high fuel efficiency. An innovative cooling system further improves performance while reducing sound levels.

THE GX GENERATOR SET RANGE

VETUS GX generators are available from 6 to 24 kVA, with both 50 and 60 Hertz options. Each unit is equipped with a carefully selected base engine, optimized for power output and fuel efficiency according to the generator speed and performance requirements.

DESIGNED TO DELIVER RELIABLE PERFORMANCE WITHOUT COMPROMISE OR COMPLEXITY

Low noise: A sturdy water-cooled aluminum engine cover and redesigned air filter reduce noise by approximately 5 dB(A). A fully insulated aluminum enclosure further minimizes sound.

High quality generator: The GX series is specifically designed for marine use, with high standards in design, insulation and finish to ensure long lasting, reliable performance in harsh conditions. The clean sine wave output minimizes interference with sensitive onboard equipment such as air conditioning systems and computers.

Easy installation and maintenance:

Preinstalled connections for battery cables, fuel, exhaust and cooling simplify installation. The sound enclosure features large removable panels, with most key service parts such as fuses, relays, fuel filter, etc. easily accessible from one side for efficient maintenance.

THE POWER BEHIND ELECTRIC BOATING

As inland boating shifts toward more efficient and greener technologies, boaters worldwide are moving toward electric propulsion. A VETUS Genset plays a key role in this setup by delivering reliable onboard power while also **charging the battery bank** of a VETUS E-LINE system. This creates a flexible and self-sufficient energy solution, allowing you to operate independently of shore power while ensuring all onboard systems continue to run smoothly.

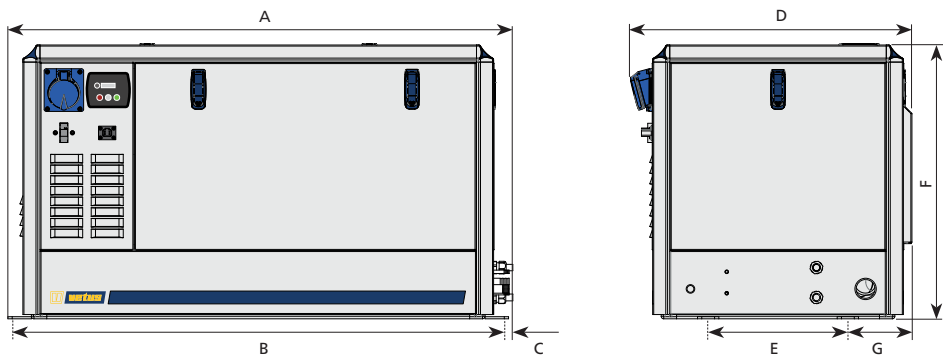

THE LINE-UP

GX generator sets operate at fixed engine speeds. Low speed 1500 rpm models are ideal for continuous operation and life aboard vessels, offering reduced wear and lower noise levels. The high speed 3000 rpm model is better suited for leisure applications, with a more compact and lightweight design that allows installation in confined spaces.

Type	Power (kVA)	Engine speed (rpm)	Frequency (Hz)	Phase	Voltage (AC)	Weight kg (lb)	Engine type
50 Hertz							
GHX8SIC	8	3000	50	Single	230	182 (408)	M2.18
GLX6,5SIC	6	1500	50	Single	115 or 230	245 (540)	M3.29
GLX14SIC	14	1500	50	Single	115 or 230	395 (871)	M4.45
GLX14TIC	14	1500	50	Three	3 x 230/400	395 (871)	M4.45
GLX14TKC	14	1500	50	Three	3 x 230/400	395 (871)	M4.45
GLX20TIC	20	1500	50	Three	3 x 230/400	465 (1025)	VH4.65
GLX20TKC	20	1500	50	Three	3 x 230/400	465 (1025)	VH4.65

Other frequencies and voltages on request.

STANDARD SCOPE OF SUPPLY

As a complete boat systems supplier, VETUS offers a full range of high-quality equipment to complement your installation. The GX generators come standard with a complete exhaust system, raw water intake kit, remote control panel and 8-meter harness, all engineered to work seamlessly together. This ensures easy ordering and optimal generator performance.

REMOTE CONTROL PANEL

The MPRGEN remote-control panel features an on off switch, buzzer and LED indicators for battery voltage and engine status. Extension cables and Y connectors are available as optional extras.

MPRGEN

INSTRUMENT PANEL

GX generator sets are equipped with a digital control panel featuring auto demand start when AC power is required. The backlit LCD display shows voltage, frequency, engine speed, warnings and shutdown status, and includes a tamper proof hour counter for maintenance monitoring.

INTERCOOLING/KEELCOOLING

VETUS generator sets are supplied as standard in an intercooled version. As an option, our 14 and 20 kVA generator sets can be supplied in a keel-cooled version, suitable for operation in shallow or dirty waters.

Global Network

With the widest dealer and technical assistance network, we have you covered wherever you happen to be sailing.

Service and Warranty

Industry-leading service and support with 3 year warranty.
